

PROGRAM FLOWCHART SYMBOLS

DECISION

The decision function used to document points in the program where a branch to alternate paths is possible based upon variable conditions.

PROCESSING

A group of program instructions which perform a processing function of the program.

TERMINAL

The beginning, end, or a point of interruption in a program.

OFFPAGE CONNECTOR

A connector used instead of the connector symbol to designate entry to or exit from a page.

INPUT/OUTPUT

Any function of an input/output device (making information available for processing, recording processing information, etc.).

PREDEFINED PROCESS

A group of operations not detailed in the particular set of flowcharts.

CONNECTOR

An entry from, or an exit to, another part of the program flowchart.
