Encourage Girls to Enter STEM (Science, Technology, Engineering and Math) Careers!

The MTSU Expanding Your Horizons (EYH) Conference is seeking motivated MTSU students to volunteer as EYH Group Leaders for girls in grades 5 to 12.

- **What is EYH?** EYH (Expanding Your Horizons) is an international one day conference that is designed to increase girls’ interest in math and science, and to provide them with information on math and science related careers.

- **What major should I have to volunteer?** Undergraduate and graduate students in any discipline are welcome to volunteer as an EYH Group Leader. EYH is great experience for “helping” majors like education, social work, and human science as well as those students interested in STEM careers.

- **What role do Group Leaders play?** Group Leaders supervise and escort the girls to the assigned workshops at EYH. Group Leaders encourage girls to participate in the hands-on STEM workshops and share with the girls what it is like being an MTSU college student. Group Leaders assist the workshop leaders if needed, eat lunch with the girls and help with dismissal on EYH day.

- **How can I become a Group Leader?** You can submit an application to volunteer as a group leader with or without college credit. To earn college credit, contact Carol.Swayze@mtsu.edu

- **When is EYH?** Saturday, October 28, 2017, 7:30 am-3:30 pm

- **How can I become a part of EYH?** Complete the online Group Leader application at http://www.mtsu.edu/eyh/group-leader.php. If you have questions, contact Carol Swayze at Carol.Swayze@mtsu.edu. **Deadline to register for college credit is August 25, 2017.** Deadline to volunteer without college credit is October 14, 2017.
